

Disclaimer

The TOPODRONE DJI AIR 2 PPK UPGRADE KIT is a high-precision surveying instrument. We strongly recommend that you handle geodetic equipment carefully to increase its service life.

DO NOT use the TOPODRONE DJI AIR 2 PPK UPGRADE KIT in any way not described in this User Manual.

DO NOT expose the TOPODRONE DJI AIR 2S PPK UPGRADE KIT to shock or vibration, especially when the device is turned on.

DO NOT place the TOPODRONE DJI AIR 2S PPK UPGRADE KIT in direct sunlight, in areas with poor ventilation, or near a source of heat or cold.

DO NOT expose the TOPODRONE DJI AIR 2S PPK UPGRADE KIT to moisture, heavy rain, snow, sand and dust.

DO NOT insert foreign objects into the memory card, LEMO 6-Pin, or external GNSS antenna slots, or install the memory card upside down or attempt to connect incompatible slots.

DO NOT insert or remove the MicroSD card while the TOPODRONE DJI AIR 2S PPK UPGRADE KIT is in operation, as this may cause the card to malfunction and/or result in data loss.

Safe storage of TOPODRONE DJI AIR 2S PPK UPGRADE KIT

When TOPODRONE DJI AIR 2S PPK UPGRADE KIT is not in use, it is recommended to store the device indoors, under conditions of relative humidity not exceeding 40% and temperature $20\pm 5^{\circ}\text{C}$. to open the outer cover.

If the TOPODRONE DJI AIR 2S PPK UPGRADE KIT gets wet from rain, snow or fog during operation, wipe it with a clean, dry paper or microfiber cloth. Then leave it in a dry room for an hour to dry completely.

Technological requirements

Structurally, the TOPODRONE DJI AIR 2S PPK UPGRADE KIT does not have protection against moisture and dust, so using the equipment in a humid (above 90%) and dusty environment may cause it to malfunction, deteriorate its performance, or start corrosion processes, with the possibility of the device failing.

In case of intentional or accidental violation of any of the above requirements, the manufacturer does not warrant the performance of the TOPODRONE DJI AIR 2S PPK UPGRADE KIT
