

TPP v.1.1.12.0 updated

22.08.2023

If paid support expired before 22.08.2023, this TOPODRONE Post Processing version will not work for a user. It is necessary to either pay for support or download previous version distributive, the release date of which is earlier than the expiration date of paid support.

Get the distribution: [TOPODRONE Software Distributor](#)

- + **Added:** new version of high-precision track calculation with support for current TOPODRONE equipment is integrated
- + **Added:** filters for quality improvement: SOR and NOISE.
- + **Updated:** LAS/LAZ library (support for 1.3/1.4 formats)
- + **Added:** a utility to automatically “terrain” classify

Revision #8
