

# TPP v.1.1.14.0 updated

## 20.09.2023

If paid support expired before 20.09.2023, this TOPODRONE Post Processing version will not work for a user. It is necessary to either pay for support or download previous version distributive, the release date of which is earlier than the expiration date of paid support.

Get the distribution: [TOPODRONE Software Distributor](#)

- + **Added:** lidar rotation option relative to IMU (roll/pitch/heading)
- + **Added:** PRJ Editor utility allowing to correct PRJ parameters.
