

TPP v.1.4.2.0 updated

20.06.2024

If paid support expired before 20.06.2024, this TOPODRONE Post Processing version will not work for a user. It is necessary to either pay for support or download previous version distributive, the release date of which is earlier than the expiration date of paid support.

Get the distribution: [TOPODRONE Software Distributor](#)

+ **Added:** multispectral + infrared camera support.

+ **Updated:** built-in viewer updated 1.7->2.1.

Performance comparison (Ryzen 2700, NVMe SSD):
