

TPP v.1.4.3.0 updated

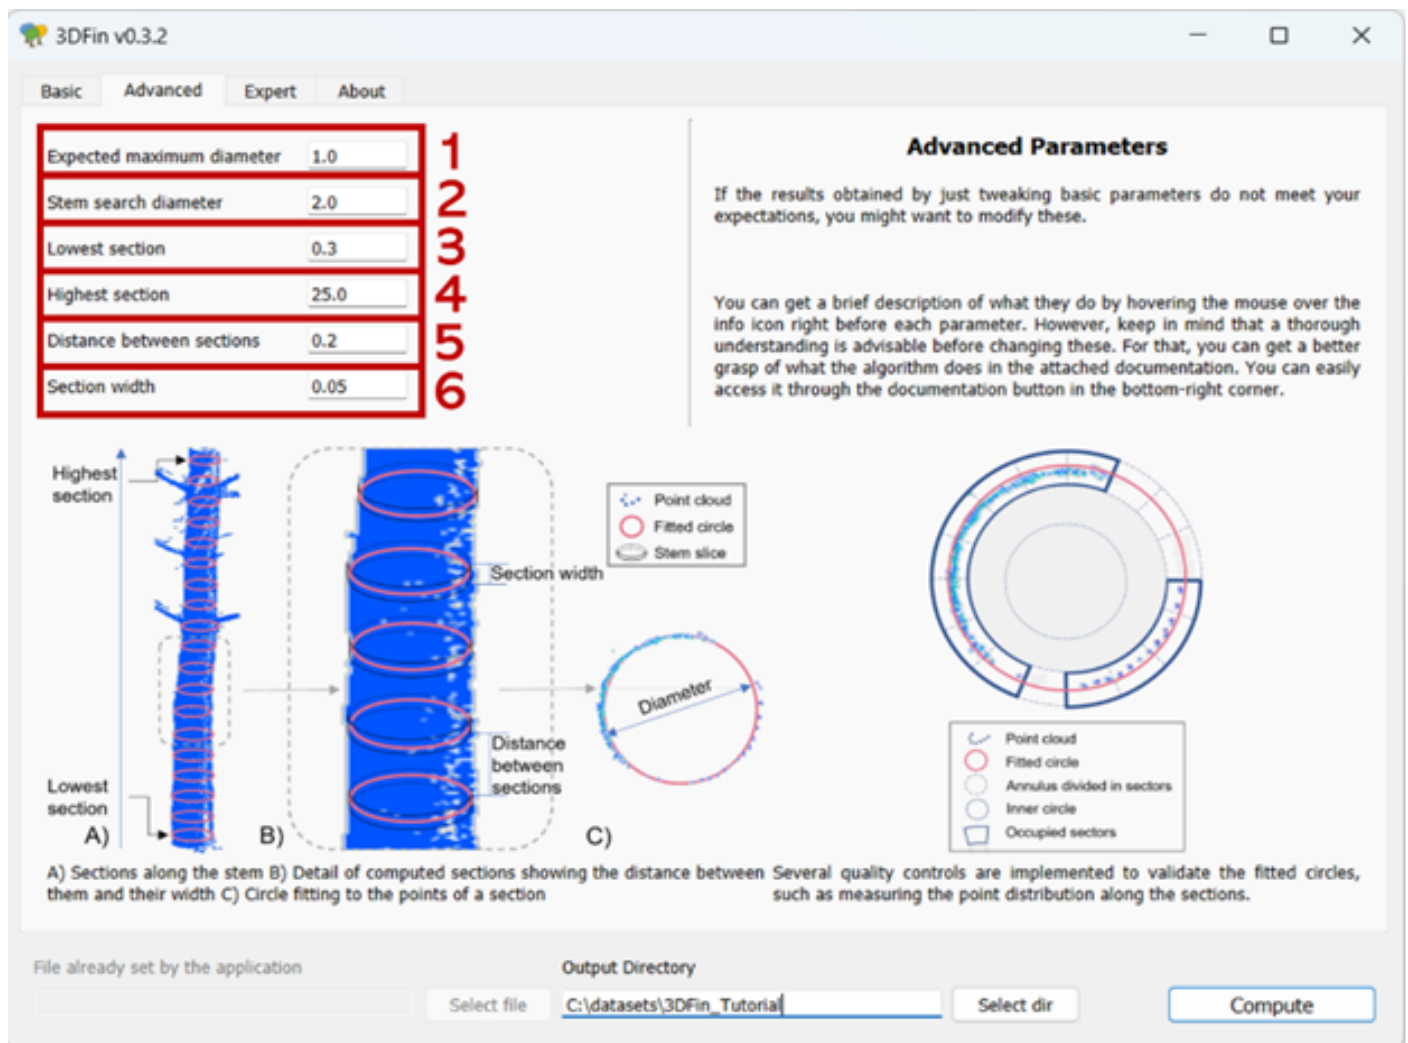

30.07.2024

If paid support expired before 30.07.2024, this TOPODRONE Post Processing version will not work for a user. It is necessary to either pay for support or download previous version distributive, the release date of which is earlier than the expiration date of paid support.

Get the distribution: [TOPODRONE Software Distributor](#)

- + **Added:** processing settings of the AQUAMAPPER module are displayed in the UI. Added roll/pitch/bottom of water body infographics.
- + **Added:** forest inventory utility

Revision #14
